WORK EXPERIENCE

Marketing Designer | Pratilipi Full-time | 4.5 Years

- Increased organic app installs by 12% by redesigning Play Store ASO visuals and optimizing listing hierarchy using data-driven design decisions.
- Designed and delivered 2,000+ high-scale creatives (Meta & Google Ads, story posters, vector illustrations, GIFs, and short-form videos), ensuring quality and efficiency in fast-paced environments.
- Executed high-frequency A/B testing by developing multiple design variations, improving CTR, conversion rates, and overall cost efficiency.
- Led AI-driven design workflows using MidJourney, ChatGPT, and Google Gemini, accelerating ideation and reducing turnaround time.
- Owned end-to-end creative execution, from concept development to final delivery and performance optimization across campaigns.
- Collaborated with Growth and Marketing teams to align visual strategy with user acquisition goals and campaign timelines.
- Designed in-app banners and user-facing assets to improve user experience and support conversions within the product journey.
- Applied emerging design and advertising trends to enhance creative performance and long-term campaign impact.

Freelance Graphic Designer | F5 Refreshment

- Established visual identity systems for new product launches, maintaining 100% brand consistency and quality across all deliverables in a fast-paced environment.
- Designed comprehensive marketing collateral (banners, menu systems, pamphlets) in a fast-paced environment, leveraging Strategic Design Thinking to bridge client goals with user needs.
- Translated business requirements into clear, user-focused design solutions, supporting marketing and customer engagement efforts.
